# ALUMAGLO

## Aluminum Brightener, Etchant and Cleaner

ALUMAGLO's tough-acting hydrofluoric acid and phosphoric acid blend is applied directly through low-pressure spray, and leaves vehicle exteriors clean with a brilliant shine. It even makes oxidized aluminum look like new with just one application.

### *Better Cleaner*

This new, improved and stronger formula is a blend of two active acids and with a dilution rate up to 25:1 to full strength, depending on surface conditions & temperature.

### *Smarter Cleaner*

Low-pressure spray ensures ALUMAGLO covers aluminum surfaces evenly in one smooth application, thus keeping cleaning costs down.

### *Faster Cleaner*

Fast-acting formula requires just 10-minute contact time to lift rust, oxides, lime and silicate soils and leave a high quality shining surface.

#### AVAILABLE QUANTITIES

20 L pails  
200 L drums
